

K-LOVE radio, 90.9 FM, is a great part of The Dalles, OR. My family is greatly encouraged and served by this station. As well, I believe this station to be a vital part of the wellbeing of our community. If this station were to be displaced by an LPFM broadcaster that provided other programming, a large portion of this community would lose out on something that we enjoy. In fact, many people in our community, including myself, contribute financially to K-LOVE to ensure that it is able to continue broadcasting in this area. K-LOVE provides a service to this community through its programming that promotes a wholesome lifestyle, which is extremely important, considering our community's rate of unemployment and elevated use of illicit drugs. I would be extremely outraged and disappointed if the FCC were to force this station out of my community.

Respectfully submitted
